

WHERE TO GO AND HAVE GOOD TIME

Some of the Beauty Spots and Also Best Places About Zion.

PLACES ONE CAN REACH WITH BUT LITTLE COST

Salt Laker has the Advantage Over Residents of Any City in Country.

Now that the good old summer time is here when resident as well as tourist seeks the cool places, Salt Laker forget that they are to be envied because their city has most delightful resorts within almost a stone's throw of their homes than any other city on earth. Here are a few of the best places about Salt Lake, and information as to how they can be reached:

Stage and Auto.

Brighton, thirty miles, head of Big Cottonwood canyon, one of the greatest chasms in Rocky mountains. Fort Douglas, Uncle Sam's military post; station, Fifteenth and Main. City Creek canyon, most beautiful drive; autos not allowed in this canyon. Wasatch resort, in Little Cottonwood canyon. Parley's canyon. Liberty park, big playground of Salt Lake. TARIFF BILL STILL BEING CONSIDERED

It Is Again Announced That It Will Reach President Soon.

MANY NOW EXPECT TAFT TO SIGN THE MEASURE

However, Much Remains to Be Done Before Bill Becomes Law.

WASHINGTON, July 18.—The Republican conference committee is near the end of its deliberations on the tariff bill and its report will be completed late this week. The general impression is that the report will be adopted by congress and will reach the president early next week.

Many expect that President Taft will sign the bill. He caused a flurry in congress Friday night by issuing what amounted to an informal message to congress reiterating his conviction that the people demanded a bona-fide downward tariff revision. Probably the five subjects which have received President Taft's personal attention—iron ore, coal, oil, hides and lumber—will be taken up by the conference first. Proceeding upon the assumption that iron ore and oil will be placed upon the free list and that existing duties on coal, hides and lumber will be materially reduced, the conferees are preparing amendments on articles relating to the foregoing raw materials.

Outside of the questions relating to the personal attention of President Taft, the greatest difficulty anticipated relates to the wool pulp and print paper schedules. On account of the statement of Representative Mann, chairman of the special committee which investigated this whole subject and reported reduced rates to the house, that he would vote against the conference report unless the views of his committee were recognized, the conferees have delayed disposition of this schedule.

Rate on Print Paper.

The house rate on print paper was fixed at \$2 a ton. The senate rate is \$4 a ton as against the existing rate of \$6 a ton. The general impression is that the senate conferees will offer to compromise with the house by agreeing to accept a rate of \$3.

The paragraph affecting women's gloves, on which the house advanced the existing rate, is a subject on which action has been deferred. The senate conferees are holding out for an amendment restoring Dingley rates. A compromise has been suggested which puts schmechen gloves on the free list. This is the cheapest glove manufactured. They retail about 25 cents a pair. The senate said the effect would be to reduce this retail price to about 50 cents a pair. The schmechen is recognized as an inferior article. The compromise is raising upon the increase made on the duty on lemons. The existing rate is one cent a pound. The senate increases this to 11 cents. The senate to 1 cent more. In the interest of the California growers. This is one of the questions to be taken up early this week.

Bowel Complaint in Children.

When six months old the little daughter of E. N. Dewey, a well known merchant of Agnewville, Va., had an attack of cholera infantum. Chamberlain's Colic, Cholera and Diarrhoea Remedy was given and effected a complete cure. This remedy has proven very successful in cases of bowel complaint in children and when given according to the plain printed directions can be relied upon with perfect confidence. When reduced with water and sweetened it is pleasant to take, which is of great importance when a medicine must be given to young children. For sale by all druggists.

Must have cash, therefore you can get great bargains in footwear for men, women and children. Come quick. Vincent Shoe Company.

MORO BANDIT CHIEF TAKES MANY LIVES

Sware He Would Kill One Hundred Men, and Comes Close to Record.

MANTLA, July 19.—When Hkiki, the Moro bandit chief, who was killed with all his followers in a desperate battle with troops and constabulary near Pao on July 10, began his career as a lawless man, he swore that he would kill 100 men before he died. The record of the murders he committed is not complete, but it is stated in a dispatch received today from Zamboanga that the bandit very nearly fulfilled his pledge as the partial record at hand shows that he took the lives of nearly 100 people.

From the latest reports of the fight, all but one of the women in the cave where the outlaws made their last stand were wives of Hkiki. Only one of the women escaped. She was the wife of one of Hkiki's followers, and accepted the same conduct offered by the Americans before the assault on the cave began.

Detachment Joseph A. Baer of the Sixth cavalry is agreed by all who saw the fight to have been the hero of the battle. He was armed with a Winchester pump gun, with which he did great execution. His timely rescue of Lieutenant Arthur H. Wilson, who was struggling with Hkiki and already desperately wounded, when Baer shot and killed the bandit, and his certain aim, which brought down three more outlaws, are the talk of army circles. Baer killed four of the eight bandits slain.

BIG PIG IRON DEMAND IN EASTERN TERRITORY

During Past Week Contracts Were in Excess of 160,000 Tons.

NEW YORK, July 18.—Large sales of pig iron have been made in the Eastern territory during the week. These contracts have aggregated in excess of 160,000 tons of foundry, forge, basic and malleable Bessemer. The most significant buying has been done by the railroads and railroad equipment shops, but pipe works, manufacturers of textile machinery, of machine tools, hardware and general jobbing concerns have been prominent purchasers.

Liberal contracts have been placed for gray and malleable iron castings and large sales of hardware have been made. There are many inquiries for plain structural material and important orders are pending for car works and bridge shops. There is a more active demand for billets and blooms, inquiries aggregating 20,000 tons.

Railroads have placed orders for bridges and viaducts calling for 10,000 tons of steel shapes, but building orders for forgings and castings call for 8,000 tons, making structural orders about 18,000 tons. Additional car orders have been placed for 6,000 railroad cars and 2,000 mining cars, while orders are also pending for 2,500 steel underframes for cars, calling for 12,000 tons of steel.

Most of the steel mills are unable to make shipments under six to eight weeks and many of them not for three months.

Can You Repair Things?

In every household there are always several things that need fixing in some way. But no one seems to know just where to find a man who can do the work properly.

If you are handy with tools and wish to add to your income, just insert a want ad in the paper telling the kind of work you want, and you will soon have a big list of customers.

Often people are so anxious to have the work done that they will bring it right to your shop and call for it again—and these are the people who will pay good prices, too.

Merchants usually dislike to be bothered with repairing things. They want to sell new goods—not to fix up old ones. So you will have little competition from this direction.

Even boys can earn money in this way if they have a few tools and know how to use them. Send in a want ad today and get started.

NOTICE.

Close to the Business District

This company offers for sale bungalows in the new residence thoroughfare, Hamilton Place, running north from Sixth South street, between State and Second East streets. This location, so close to the City and County building and to the business district, makes these houses particularly desirable for homes.

No two bungalows are exactly alike. Each has its distinguishing style of architecture. Just enough variety has been introduced to give an artistic atmosphere to the place.

At the head of the street a unique Spanish mission arch has been erected, which adds greatly to the general attractiveness. It contains a number of windows in which lights are placed that illuminate the thoroughfare.

The street is paved, cement sidewalks, sewer connections and gas mains laid, and all houses are supplied with gas for cooking, also electric lights. Sold for cash or on our monthly payment plan. Prices \$3000 to \$3700.
